

Cadaver, Scum Of The Earth

Your presence sickens me
Your kind is what I avoid
An agenda of absurdity
Utter darkness fills your void

You are - that kind
So dumb - so blind
(You) terrify me
But you - will die
Wiped out, erased, denied
You won't defy me

Run with me into the void (blindly)
Like zombies infected by lies (brain defunct)
Astray like a homeless android
In a herd that nobody wanted
You are scum

Fuck you - I want you destroyed
My goal is silence
We all - have to avoid
Your world - overkilled by mercy

You are - a free rider
An abuser - a truth denier
You're worth - zip zero
Still you think - you're a hero
