

# Cadaveres De Tortugas, Aflame (Spark Of Life)

Nobody knows who I am behind this mask of mine  
I don't wanna hear you askin' me you will never know  
The fire that burned you through my eyes has you  
Under control and won't ever let you go

Everyone feels it's in the air yeah you can feel the vibe  
You don't need to ask me about it - Take a look around  
A new breed so strange prepares to rearrange your life  
You are stuck in the past but now your future is mine

Nobody knows it  
But everyone feels it  
You gotta kill me 'cause  
I'll never let you break me

It burns and it burns and it's light turns me on  
This time I won't let it out of my world  
I'd rather be burnt, than to be frozen  
Set my soul on fire - Set me free

Nobody knows what's that growin' under the skin of mine  
I don't wanna hear you askin' me you will never know  
It wants to get out, come to life, help you to reach your goal  
You'll never be the same anymore

Everyone feels it's in the air yeah you can feel the vibe  
You don't need to ask me about it - Take a look around  
Hide the light in your eyes - The spark of life will

Burn the world as it will explode in my mind
