

# Cadaveres De Tortugas, Password: Showdown

Closer, one step closer  
One step closer to me  
Show yourself, your real face  
It's time to clear who'd you be  
I wanna know what can you say  
Reasons are what I wanna hear  
Speak about you, about your life  
That relegated me

Away, go to hell away  
Don't wanna control me  
You try to make me blind  
But you lie to me I see  
I got truth on my side  
And I do what I like  
That's all I can say  
Go to hell away

Don't wanna judge me  
Don't judge me  
Don't wanna bind me  
I can't live that way

Closer, one step closer  
Try to tell some more  
You can't... than give up my friend  
That's the only solution I know

You can't break me - I can't change  
You know you came too late  
That's my world, you've got no place here  
Just go to hell away
