

# Cadaveres De Tortugas, Rat Bones

I hear voices coming out of my head  
They are my destiny and your dead end  
I'm closed into my body, suggest me hate  
Souls tied together lost their faith

Voices - loud so loud  
Rat bones - in my mind  
Voices - Can't drive them back  
Rat bones - Deadly blood compact

Rat bones - Under my skin  
Rat bones - They kill my dream  
Rat bones - Under my skin  
Rat bones - It's time to kill

I've dig that bones out for a long time  
They're inside me, here in my mind  
Crushed splints opened my veins  
Affect me and cause me so much pain
