

Cadaveres De Tortugas, Turtles Ahead

Eh chico, take a look around
Bow down for the CDT sound
Are you fed up? I don't give a f**k
You are the clown of this muthaf**kin' town punk

Let's have a late night light flight
Turtles airlines will be your guide
It only has first class, free your mind brother
Sit back, relax with the green smooth devil

Never ever think it's a matter of time
to bring us down - Thanx, we're feelin' fine
Don't have us out of sight, no, but step aside
Don't forget the danger, it's like suicide

Step aside 'cause CDT comes full affect
Yeah let's go ahead

Asi me gusta, no question my brother
These words are strong 'bout the lifestyle I prefer
Always speak the truth in the microphone
I like it like that when our minds are stoned

Sientate - Relajate
Con este agradable verde
Estas harto mio hermano
Apartate - No me paro

I try to fly high, but we're damn I see
I can't stop, I won't stop, hay que pasarlo asi
I don't give a f**k to the things you say
No es tu cosa, I still live my way
