

# Cadaveria, Virtual Escape From Tragedy

Feel the frequency  
Perceive your pulse  
Trust the ideology  
To capture the ancient secret of life.  
I'm looking for the antidote to myself  
I'm working for my heart's freedom  
To rid myself of the other side of me.  
To rid myself of this virtual escape from tragedy  
Hypochondriac creature  
Disturbed by his memory  
One single disease to cure  
But you think of the rest.  
It's not as tragic as you believe  
Just free your mind of fears, life is pulsing.

Just feel its frequency.  
Life is pulsing, just feel it.  
Just feel the frequency of this virtual escape from tragedy.
