

# Cage, Asta La Vista

[Music: Dave Garcia]

[Lyrics: Sean Peck]

You try and invade my life,  
You think you're my f\*\*king wife  
My back is holding your knife,  
I have a few things to say  
Yours ain't the only way,  
Your bitching has got me crazy

How many time do you,  
Yell at me till I'm blue  
I'm telling you now we're through  
You get on my nerves you grate,  
You're sorry but it's too late  
You're leaving and I can't wait

You bother me you're going away  
You bother me you're leaving today

I can see through you you are driving me  
To the bitter end why can't you see  
You sit there and wonder  
Because you never listen  
Here's something to ponder  
Stop your f\*\*king bitching at me

You're shit is out of my place  
I'm sick of you makeup face  
Get out and don't leave a trace  
We had a few nights of fun  
Check that and make it one  
Your leaving and watch me run

You are not the same  
Free me from your pain  
Reputation stain never more again
