

# Cage, Legion Of Demons

Up from his kingdom of fire his legions come swarming  
Unholy warriors cry, a dark day is dawning  
Crushing the snow and the ice, they stand by the millions  
Dealing with the devil's device, they'll bring his dominion

They come without warning, the ending is near  
They blacken the light of the sun  
They fall from the sky making men disappear  
Blasting their hellfire guns

Send forth the legion - Breaking the seal  
Legion - Lightning and steel  
Legion...  
Legion of demons  
The legions of demons

Now go - Up from below - Nothing shall stop you

Wicked savior - Savior of the wicked

Laser eyes, locusts they fly they'll burn every nation  
No one will be left alive - The first revelation

They come without warning, the ending is near  
They blacken the light of the sun  
They fall from the sky making men disappear  
Blasting their hellfire guns
