

Cage The Elephant, Cold Cold Cold

Doctor look into my eyes
I've been breathing air
But There's no sign of life
Dr. the problem's in my chest
My heart feels cold as ice
But it's anybody's guess

Dr can you help me?
Coz I don't feel right
Better make it fast
Before I change my mind
Dr can you help me?
Coz I don't feel right
Better make it fast
Before I change my mind

Well it's cold
Cold, cold, cold inside
Darker the day
That dead of night
Cold, cold, cold inside
Dr can you help me?
Coz I don't feel right
Something don't feel right

Sweet nurse don't look at me that way
I've seen these eyes
Before I can tell you want to play
Councilor give me some advice
Tell me how hard will I fall
If I live double life
