

# Cage The Elephant, James Brown

Run around the corner  
Fell asleep in the sun  
You had to move into the shade  
Before you fire the gun

We got a hunger for destruction  
Need someone to bleed  
You sealed the deal before the dawn  
You let your actions proceed

Some sunny day they're gonna come for you  
Some sunny day they're gonna come for you  
Sooner or later said you know that it's true  
Some sunny day they're gonna come for you

You think you're so sly  
You tried to roll by  
You played the safe side  
You said will somebody take me

Down town  
Another James Brown  
You made the same sound  
You said will somebody write this down . down

Fightin' back revenge  
You've got you're face to the ground  
You make excuses for the madness  
You've been hanging around

You built a house up in the trees  
So you could see everyone  
You set the clock and had a run  
You set the clock and had a run

Some sunny day they're gonna come for you  
Some sunny day they're gonna come for you  
Sooner or later said you know that it's true  
Some sunny day they're gonna come for you

You think you're so sly  
You tried to roll by  
You played the safe side  
You said will somebody take me

Down town  
Another James Brown  
You made the same sound  
You said will somebody write this down...down  
Some sunny day they're gonna come for you  
Some sunny day they're gonna come for you  
Sooner or later said you know that it's true  
Some sunny day they're gonna come for you

You think you're so sly  
You tried to roll by  
You played the safe side  
You said will somebody take me
