

Cagnet, True To Your Heart

You know tim is a healer
It takes away the hurt and the sorrow
Cleans away the bitterness
(that) we sometimes feel inside
We can never know
When our time is near the end
Let's stop all our quarrels
The fussing and fighting
This time we can get it all right
* We can live
in a world so free
Be true to your heart
and let love just take you there
Remember back when
we would talk into the night
making our plans so right
with no ned in sight we lived
Now we never find
just sometimes to say hello
We're busy at keeping our jobs
and our meetings no time
to spend on our own
* repeat
* repeat x 2
** Be true to your heart
and let love just take you there
