

Cal Smith, I Don't Get No Better Without You

I just don't understand why things keep hanging on
You're gone why don't your mem'ry leave me alone
I'm doing all the things they say to do but I don't get no better without you
I just know the one who said things get better with time
Didn't have the kind of love I have for you
The only thing that time has done is gone and out of my mind
Cause I don't get no better without you
[fiddle]
I just know the one who said...
No I don't get no better without you
