

Calamine, Horse & Carriage

Everybody's got big plans
For you
And everybody's tellin' you
What to do

It's makin' me nervous
It's makin' me nervous too
How 'bout you rely on me
And I'll rely on you

And then we can wait until the
Coast is clear
And then we'll make our
Great escape
I've got all we need
I've got rope and twine and sticky tape

And I know a place
Where we can go
Nobody has to know
I'll take you there
I'll take you there
To my secret place

Because I have got a map inside my head
I got it from some books I read
And certain things that you said
To me

'Cause your voice
It ricochets and I,
I'm makin' plans again
I'm not listenin' to them
Anymore

So let me be the
Horse on your carriage
Well I will take you
Where you wanna go

Take you there,
I'll take you there

Let me be the
Horse on your carriage
Well I will take you
Where you wanna go

Let me be the
Horse on your carriage
Well I will take you
Where you wanna go
