

# Caleb Kane, Go Mad

Hunted inside my days unfold  
Open up take my thought  
You just roll 'em around  
When you come down  
Tell me where, why, when, how

This time I woke up on my back again  
Staring up at the sky  
I don't care about his confidences  
I don't wanna feel that slow  
I don't care about these permanencies  
When you wannna stop, just go

And I just wanna be near to you  
When the things we done come clear to you  
And I wanna go mad, I wanna go mad  
I wanna go mad for a minute  
I just wanna be in it  
I just wanna be near to you  
When the things we done come clear to you  
And I wanna go mad, I wanna go mad  
I wanna go mad for a minute  
I just wanna be in it, I do

Even in this dumb dance alone  
Big ups to all my friends  
Cause I don't wanna be black, don't wanna be white  
Don't wanna be obvious  
Making you a promise that I'll go out swinging  
While I'm singing this song for us

And I just wanna be near to you  
When the things we done come clear to you  
And I wanna go mad, I wanna go mad  
I wanna go mad for a minute  
I just wanna be in it  
I just wanna be near to you  
When the things we done come clear to you  
And I wanna go mad, I wanna go mad  
I wanna go mad for a minute  
I just wanna be in it, I do

And even when the complications settle in  
And even when I try to put it in its place  
And even when the glue around me doesn't stick  
And all the walls around me crumble brick by brick

Oh I just wanna be near to you  
When the things we done come clear to you  
And I wanna go mad, I wanna go mad  
I wanna go mad for a minute  
I just wanna be in it  
I just wanna be near to you  
When the things we done come clear to you  
And I wanna go mad, I wanna go mad  
I wanna go mad for a minute  
I just wanna be in it, I do
