

# Caleb Kane, When The Light Goes Out

Don't grow sad

Wondering were you went wrong

You'll go mad

Just carry on

There's a feeling you get

When there's no where to run

When there's no one to feel safe around

There's a change in the air

When there's somebody there

As the walls come tumbling down

And when you're falling

When you're falling, I'll be there somehow

I'll hear you calling

Hear you calling

When the light goes out

Don't slow down

Fears closing in right behind

And there's no way out

You can see

But to hold onto your desperation and rage

Cause it's all that you dare ever know

You can change everything with a turn of a page

But you fight and refuse to let go

Do you fear what you hear?

When the light goes out

Can you feel that I'm near?

When the light goes out

And when you're falling

When you're falling, I'll be there somehow

I'll hear you calling

Hear you calling

When the light goes out (X2)
