

Calexico, Kiss And Tell

Come on back here into the kitchen
You gotta see this one
You gotta see it close
They told you be careful
Don't trust no one but yourself
Be careful

In the kitchen with one bare light bulb
The floor manager is your best of friends
And out late when the drinking crowd weighs in
Way up late reading your book "kiss and tell"

Kiss and tell, don't trust no one but yourself
Kiss and tell, trust no one
You're under your spell
You can't trust yourself
You're under your spell
Under your spell
