Calexico, Kiss And Tell

Come on back here into the kitchen You gotta see this one You gotta see it close They told you be careful Don't trust no one but yourself Be careful

In the kitchen with one bare light bulb
The floor manager is your best of friends
And out late when the drinking crowd weighs in
Way up late reading your book "kiss and tell"

Kiss and tell, don't trust no one but yourself Kiss and tell, trust no one You're under your spell You can't trust yourself You're under your spell Under your spell
