

# Caliban, Detect Your Liberty

look into the wide, wild liberty  
look well, it's reality  
close your eyes and turn loose,  
all burden is impulse  
drop the anger, the hate you cherish  
turn loose, cry on me, let go, let all go  
I hold your hand and lead you  
we're melt together, becoming one  
and we get the power to cry,  
scoop for your life, cry, detect your liberty  
fight for your freedom,  
freedom is life, burn down your walls.
