

Calico System, It's Fair To Say

Fair, what do I know, what can I say
The passion is over and I should have noticed it unfortunately
But it gives me more than I ever needed in this uncertainty
And it gives me more than I ever needed, throw the passion away

Fair, what do I know
Fair, what could I say
Fair, fair and it gives me more than I ever

Feels like I'm losing the biggest, the best part of me
Can't live your life through me vicariously

What I say

Feels like I'm losing the best part of me
Was it always all about me

Fair
