

# Califa Thugs, Up In The Club

(Mr. Sancho)

When I walked in all eyes on me  
can't help it cause the light's shining off me  
cause I'm blinging in the lounge and VIP  
all the women in the house want LPG  
we doing some damage in the cabbage causing static  
grab my automatic and let these putos have it  
we these LPG's and we in the club getting high tonight  
I already identified plenty of haters in the sky  
before enemies can carry on me on my side  
fuck it checking a cutie on the dance floor  
pushing that ass up back up  
all of my homies and these putos act up  
my gat's tucked but I'm just here to have a good time  
there's too much pussy up in the place to trip on good times  
I'm surrounded by C's D's and double D's  
some down ass women that freak me down to they knees

(Mr. Sancho)

it's these LPG gangsters who just walked in the club
