

Calvin Harris, By Your Side (feat. Tom Grennan)

When you wake up in the morning
and the shadow by the darknes of the night
When you wake up in the morning, darking
i will be By Your Side

when you get a little lonely
and you lose tour rhythm
don't vive up the fight

When you wake up in the morning, darking
i will be By Your Side

When you wake up in the morning, darking
i will be By Your Side
i will be there
by your side
i'll be everything you wanted

i will be there By Your Side
if you need a light
just shine it,
i will be there

darkness of the night
i;ll be by your side
so lift your hand
cause you knwo that you got love

there'll fire again in the dark
hold out your hand
let the stars sing again
