

Calvin Richardson, True Love

I m always thinking of you
So I thought I'd let you know
I hope I m not intruding
Of telling the world I love you so

I thought I'd get to know you
What your love is about

I m always thinking of you
Cause you live inside my dreams

Ohhh, search the world to find your love into two
How long have I been looking for you
I've never searched so hard in my life
To find someone

True love is hard to find
Someone to treat you right
And if true love you need
Then you will find in me

I hope that you will measure
The contents of my heart
I hope that you will treasure
The way that I feel for you

And If you chance you'll understand
The sentiments of a man
I know you wont be curious
Cause my love will keep you walking by

Its true I search the world to find a love like you
I've been looking in a sky full of stars
But you are, just to fine, my only peace of mind

True love is hard to find
Someone to treat you right
And if true love you need
Then you will find in me.

Doo, doo, doo, doo
