

# Cam Hodges, Cheers To You

Thought I might have been the only one  
Thanks for telling me I'm not  
Here's to everything you've put me through  
Here's to everything I'm not  
It wasn't perfect but it was enough  
You got your point across and now you're gone  
So cheers to you

Here's to everything I've ever been  
I wish I could have been much more  
Here's to all those things I should have said  
Before you walked out of my door  
It wasn't perfect but it was enough  
You got your point across and now you're gone  
So cheers to you

So thanks for telling me who I am  
You've always known me better than myself  
So here's to you  
It wasn't perfect but it was enough  
You got your point across and now you're gone  
So cheers to you
