

Cam Hodges, When The Cameras Flash

Save the words
Save the diamonds in the ground
They'll mean the most then
They'll mean the world
Sada loved
Sada loved the times with him
She gave an answer, she let him go

And I
I can't believe its happening to me
It happened so faithfully
But that's the way it tends to be when the cameras are on
And you don't know why
You just don't know where to go

Don't forget I'll be here when you get back
And you won't get away
But lately I,
I can't believe it's happening to me
It happened so faithfully
That's the way it tends to be when the cameras are on
And you don't know why
You just don't know where to go

There's the sun
It gave the best times and the worst
But now they're over and I won't forget her
That's the way it tends to be when the cameras are on
And you don't know why
You just don't know where to go
