

Cameo, I'll Never Look For Love

Verse 1 (Male Lead)

Thank you love for caring all this time
For every passing moment along the line
I use to take this kind of love for granted, how I was wrong
and now that I've been all around I've come back to you

Chorus

And I'll never, ever look, look for love outside OUR DOOR
Here's the love we've waited for, what's in the past will be no more
I'm FOR you

Verse 2 (Female Lead)

let me hold you sweetheart just this time
To remind us of what we mean to each other
How can we let go when this is the only love we'll ever, ever want to know
People say all things change, but our love will never say the same.....

(Chorus along with lots of Female ad lib)

outside oooooh ooooooh ooooooh
Let me hold you for this moment woah, woah, woah
Here's the love we've waited for, what's in the past will be no more
I..I..I..I..I..I..I..I..lovvvve you
I-I-I really doooooo

(Fade)
