

# Camera Obscura, A Sisters Social Agony

You bruise like a cherry my darling girl  
Words can mean nothing to some in this world  
I want you to know I thought about you last night  
I cried  
Play indie rock if that's what you want  
Quote Mike Leigh films it will turn them all on  
I heard you were going on a first date  
That's great

Don't apologise  
Try your best not to disguise  
To get misty eyed at times is fine  
Sometimes it feels like you're the only one  
A freckle appeared on your lip from the sun  
Those kids that you run with, they put you down  
Make no sound
