

# Camera Obscura, Come Back Margaret

Come back Margaret he wants to adore you  
Come back Margaret I'd like to explore you  
Can't you see the tears in my eyes?  
With love for him I disguise

I like the free days with no expectations  
I like it my way with no limitation  
Still you see there are tears in my eyes  
With love for him I despise

Darling you will always be around  
Whether my mood's up or if it's down  
In dreams I try to take you far away  
But you never stay  
No you never stay  
No you never stay
