Camera Obscura, Lunar Sea

For the Lunar sea see the river moon And you got it Match the finest words to the greatest tune And you bought it See me cross in style Walk the longest mile in a minute Where do drifters go? Wonder if they know theres no limit At the rainbows end Find a perfect friend say youre sorry Make me dream at night Break my heart on sight dont you worry Swept the sounds of love from the skies above And I knew it Swim the seas of blue just to drown in you And I blew it

Chorus

You hear it, the shiver in spine dont come near it I love it, you soar and you cry rise above it Got my lunar sea for youre river moon If you let it Match my finest words to your greatest tune Wont forget it

Chorus

You hear it, the shiver in spine dont come near it I love it, you soar and you cry rise above it Fly by lunar sea lullaby
