

# Camila Cabello, All These Years

[Verse 1]

Your hair's grown a little longer  
Your arms look a little stronger  
Your eyes just as I remember (oh)  
Your smile's just a little softer

[Pre-Chorus]

And I, yeah, I never prepared for a moment like that  
Yeah, suddenly, it all came back, it all came back

[Chorus]

'Cause after all these years  
I still feel everything when you are near  
And it was just a quick "Hello," and you had to go  
And you probably will never know  
You're still the one I'm after all these years  
(Oh yeah)

[Verse 2]

Couldn't help but overhear you  
Sounds like you're happy with her  
But does she kiss you like I kissed you?  
Ooh, I wish I loved you like I miss you

[Pre-Chorus]

And I, yeah, I never prepared for a moment like that  
Yeah, suddenly, it all came back, it all came back

[Chorus]

'Cause after all these years  
I still feel everything when you are near  
And it was just a quick "Hello," and you had to go  
And you probably will never know  
You're still the one I'm after all these years, oh  
'Cause after all these years  
I still feel everything when you are near (you are near)  
And it was just a quick "Hello," and you had to go (ooh)  
And you probably will never know (oh)  
You're still the one I'm after all these years

[Bridge]

I never told you, I should've told you  
I never told you after all these years

[Outro]

Told you, I never told you (told you)  
Told you, I never told you  
I never told you after all these years
