

# Camila Cabello, Used To This

No, I never liked San Francisco  
Never thought it was something special  
Till you kissed me there  
No, I never liked windy cities  
But I think maybe when you're with me  
I like everywhere

It's the strangest feeling  
Midnight, I'm not leaving  
Know for once, I think I'll stay  
I'll say your name, just listen  
Doesn't it sound difference  
Never whispered it this way

It's gonna take me a minute  
But I could get used to this  
I feel it in your fingertips  
The feeling of another kiss  
It's gonna take me a minute  
But I could get used to this  
Like every tattoo on your skin  
I'm memorizing every inch  
I could get used to this  
I could get used to this  
Definitely

No, I never did like tequila  
But there's something about when I see ya  
I think I need a drink  
And the callouses on your fingers  
I admire them from a distance  
Now they're on my cheek

Oh, I've known you forever  
Now I know you better  
Let's just get carried away, oh  
And it bears repeating  
How hard my heart's beating  
When you tell me I should stay

It's gonna take me a minute  
But I could get used to this  
I feel it in your fingertips  
The feeling of another kiss  
It's gonna take me a minute  
But I could get used to this  
Like every tattoo on your skin  
I'm memorizing every inch  
I could get used to this  
I could get used to this  
I could get used to this  
I could get used to this  
Definitely

No, I never liked San Francisco  
Never thought it was something special  
Till you kissed me there

It's gonna take me a minute  
But I could get used to this  
I feel it in your fingertips  
The feeling of another kiss  
It's gonna take me a minute  
But I could get used to this

Like every tattoo on your skin  
I'm memorizing every inch  
I could get used to this

I feel it all (I could get used to this)  
Your kiss is all  
I'll risk it all  
Certain things are starting to fall  
But we lost it all  
And I just can't believe it all  
Definitely
