

Camouflage, I'll Follow Behind

I know we travel a world to get to
A place in our mind
Brother
Were born alone and raised with suffer
More or less fine
But if you stay on the line
There will be something else
You'll find
'Cause if you're walking ahead
I'll follow behind
There's nothing left for bad
It's in your mind

And if you're walking ahead
I'll follow behind
It's in your mind

A nerd to see the world is changing
And step back behind
Brother
A whole life's running through your hands boy
And you waste your time
But if you stay on the line
There will be something else
You'll find
'Cause if you're walking ahead
I'll follow behind
There's nothing left for bad
It's yin your mind
And if you're walking ahead
I'll follow behind
There's nothing left for bad
It's in your mind
