

Camp Rock, Who Will I Be

Woah
Yea, yea, yea, yea
How to choose
Who to be
Well lets see
There's so many choices now
Play guitar
Be a movie star
In my head a voice says
Why not
Try everything
Why stop
Reach for any dream
I can rock
Cause it's my life
And now's the time
Who will I be
It's up to me
All the never ending possibilities
That I can see
There's nothing that I can't do
Who will I be
Yes I believe
I get to make the future what I want to be
If I can make up any one and know the choice is up to me
Who will I be
Yea yea
If I decide
I'm the girl to change the world
I can do it anytime
Opportunity right in front of me
And the choices are mine
Why not
Try everything
Why stop
Reach for any dream
I can rock
Cause it's my life
And now's the time
Who will I be
It's up to me
All the never ending possibilities
That I can see
There's nothing that I can't do
Who will I be
Yes I believe
I get to make the future what I want to be
If I can make up any one and know the choice is up to me
Who will I be
I want to find the who I am inside
Who will I be
I want to show the way
The way that I can shine
Yea (Who will I be)
oh yea, yea
Who will I be
It's up to me
All the never ending possibilities
That I can see
There's nothing that I can't do
Who will I be (Who will I be)
Yes I believe
I get to make the future what I want to be
If I can make up any one and know the choice is up to me

Who will I be
Woah
Who will I be
Who will I be
