

# Campfire Girls, Buttercup

right lane right turn only the sign said  
down on crescent heights and fountain  
careful there are children crossing  
don't know why i don't know stopping

it's such a relief you're next to him  
and not with me or on my tip

what's up buttercup?  
when i am down and all washed up  
you make me feel better  
hey there cubby bear  
where'd you go? i don't care  
i wish i could own you  
play dead sleepy head  
what the hell have i just said?  
i thought i knew better  
woe is me i set you free  
now you won't come back to me  
i wish i could hurt him

it's such a release you're next to him  
and not with me or on my tip  
i'll never sleep again  
i'll never know the way  
i'm going out my head  
it's all the same

right lane right turn only the sign said  
down on crescent heights and fountain  
careful there are children crossing  
don't know why i don't know nothing

it's such a release you're next to him  
and not with me or on my tip  
i'll never sleep again  
i'll never know the way  
i'm going out my head  
it's all the same  
i'm going out my head  
it's all the same  
i'm going out my head
