

# Canadian Bush Party, Duct Tape Saved My Life (

Driving north on 16 west, next to the girl I think smells the best  
We hear a rattle, and then we hear a hum,  
sound of metal on concrete sounds like a tin drum

Chorus:

Duct tape saved my life but bondo saved my car  
9 and a half weeks ago last Saturday night,  
like two hyenas in the night

I had a girl in the dark and gloomy place,  
she had that look strewn across her pink face,  
I fumbled about for an appropriate cover,  
found a wrapper but not another,

But I knew I had a godsend in my trunk so I wrapped him up from back to  
front

Well I still drive a Civic through the streets of this city,  
held together but not lookin too pretty  
Just last tuesday I think it was the 5th,  
hit a Volvo and boy he was pissed

Bridge:

Bumper of bondo passed through side impact beam,  
broke up seats, headlights and everything in between
