

# Canadian Bush Party, Insert Directly

Barbits' and Alcohol will make the end so near  
Sodium Penthanol will tell you what you want to hear  
Amphetamines will make you paranoid and cruel  
But you need those little red Bennys just to keep you awake in school

Chorus

Insert Directly and I'll feel no pain  
No medication here comes close  
Insert Directly and I'll feel no shame  
Hang on now 'cause it gets worse  
Times like this I wonder what the hell I'm doing here  
When it takes half of all my courage and a fifth of all my fears  
I look into John's eyes and I don't feel so bold  
I start to realize that this game is getting old  
Sitting on my TV I hear "Be all you can be"  
and I start to consider and armed felony  
I'll just go out on the street and get what I need  
and only a few innocents will have to bleed
