

Cancer Bats, French Immersion

Lets do this, Yea, this reckless life, 1..2..3..4
Chances all, written off, write our own, prevail
This blood we drink, in our hearts
Take back the bonds that break us
Take back the oaths we swear
Take back to make things right
Young hearts be free tonight
And what we've got
This is out ammunition
And what we've got
This is out ammunition
Lets do this, yeah, this reckless love, making amends
Chance is ours, start a new, don't look back, prevail
This blood we drink, in our hearts
Take back the bonds that break us
Take back the oaths we swear
Take back to make things right
Young hearts be free tonight
And what we've got
This is out ammunition
And what we've got
This is out ammunition
Lets do this, yeah, this reckless way, yeah
