

# Cancer Bats, PMA 'Til I'm DOA

I might get dragged  
There's times when life will mess me around  
I'll tell you this here  
Nothing's gonna bring me down  
You're either living or dying  
You're either living or dying  
And as long as I'm breathing  
I'll sing these words at the top of my lungs  
Hey, hey, hey  
Everyday I'm alive  
Hey, hey, hey  
Is the best day of my life  
On the eve of destruction  
Firmly gripped upper hand  
Done our best to shake off the sickness  
I might get dragged  
There's times when patience's hard to be found  
I'll say this here  
Nothing's going to bring me down  
There's no need to complain  
Save your horseshoes and wishes  
We'll make our own luck  
We'll shape our future  
Hey, hey, hey  
Everyday I'm alive  
Hey, hey, hey  
Is the best day of my life  
Annihilation faced without fear  
Because I've lived to the fullest  
Without remorse or an ounce of regret  
I could die tomorrow  
I might get dragged  
There's times when I'll get knocked to the ground  
I'll scream this here  
Nothing's gonna bring me down  
We're all given choices  
Shake it up or just exist until you're gone  
Get busy or get dead  
That's my word, I'll stand by what I said  
You're either living or dying  
You're either living or dying  
And as long as I'm breathing I'll live these words 'til the day that die  
Everyday I'm alive's the best day of my life
