

# Cancer Bats, Sorceres

Off my chest  
Little girl you're at the top of my shit list  
I swear to god you're the worst piece of trash I've met  
In a long while  
All the back talk  
And the lies  
You couldn't speak the truth if you tried  
I'm surprised you even show your face around  
After whats gone down  
Hey hey you little train wreck  
Your crying wolf shit is over rated  
Hey hey you little train wreck  
That you're the worst is an understatement  
Burn those bridges down  
I swear little girl you'll set the city on fire  
Off my chest  
That shit you talked got me pretty god damned stressed  
Worst part is I'm just one case in a long line  
That you've fucked with  
Worse stories can't compare  
To all the shit that you've done in a year  
I swear karma's gonna burn you down like a witch  
Paybacks a bitch  
Hey hey you little train wreck  
Your crying wolf shit is over rated  
Hey hey you little train wreck  
That you're the worst is an understatement  
Burn those bridges down  
I swear little girl you'll set the city on fire  
If you lit a match for every lie that you told  
Everything around you will be engulfed in flames  
Oh, god I've got to get this...  
Off my chest  
Oh little girl you're at the top of my shit list  
I swear to Christ you're the worst person I've ever met  
In my entire life  
Shit talker two timer  
You're called out as a god damn liar  
Every single word that you say is untrue  
Every one hates you  
Hey hey you little train wreck  
Your crying wolf shit is over rated  
Hey hey you little train wreck  
That you're the worst is an understatement
