

# Cancer, Imminent Catastrophe

Acid spilling all around  
Flesh decaying falling down  
(Your) criminal friends have left you now  
Death greets you with gory hands

Into the acid  
Into the acid

Eyes gone yellow, facial burns  
Limbs rotting, terrible pain  
Vomiting guts, bones decay  
Your intestines break and spray

Time to see what is done to me  
Contamination of my body

Into the acid...
