

Cancerslug, Betrayed

its just another day,
with just another disappointment left to render me with nothing else to say
and nothing in the way of all the shit you took from to me
you f**king bitch
i ripped my heart and soul apart to shelter you
now i am left to decay
here wallowing in shit filled misery
the cost of you
now way the pain will go away
you cant take that away
my sickness, my decay, are pale reminders, here, of you
