

# Cancerslug, So Many Dead

ill put on the mask  
ill take up the knife  
ill put on the gloves  
ill take your life  
i am a f\*\*king force of nature  
i am the beast inside the man  
with life and death here in my hands  
i am the one who is coming  
take cover  
oh no, not while they are sleeping  
f\*\*k them, they deserve what they get  
i am the teeth of the machine  
sent here to grind your world clean  
i have seen so many dead, but i can have no sympathy
