

# Candye Kane, One More Day (Without Your Love)

One More Day without your love  
One more day, it's you I'm thinking of.  
The moon is full and the stars are bright,  
but without your love, I can't sleep at night,  
and it's one more day without your love.

One more night, without your kiss  
One more night I can't go on like this.  
I hang my lonely head and cry,  
if you don't come back, I'll be losing my mind  
and it's one more night without your kiss.

I count the minutes and the hours  
till you're here again.  
Time is moving slower now  
how long has it been?

One more Day, without your love,  
One more Day it's you I'm thinking of  
every couple that I see,  
I only wish it was you and me,  
and it's one more day without your love.

I know my heart is breaking  
how long can this go on?  
I pray that with that morning sun,  
you'll be back here in my arms.

One More Day, without your love  
One more Day it's you I'm thinking of.  
The moon is full and the stars are bright  
but without your love, I can't sleep at night  
and it's one more day without your love.
