(feat. Luminati)

Executive Order 11002

The reason you know me but I don't know you  
You really wanna know what drama is let me show you  
But keep in mind this is just one point of view  
Drama is livin' in a 3rd world country  
Fucked up and hungry without no money  
Drama is trying to adjust to circumstance  
Missing more than one leg or more than one hand  
Drama is being chased off ya' land  
By a funny looking man in a suit that works for the bank  
Drama is what's happening to the ecosystem  
And the animals it feeds, from the damage to trees  
To rainforests that get destroyed annually  
Damn is it just me who cares about the air that we breathe?  
Drama is the nuclear threat that we live with  
One bomb and everybody's dead that's some sick shit  
Drama is HIV statistics  
The infected person that you might have sex with, life goes on  
But drama is living with the afterthought that maybe you could have prevented it  
Drama is imminent, it comes in other forms  
The sick pedophiles who support child porn  
Never mind the offenders  
Think about what the victims go through and what the fuck they gotta' live wit  
Drama is the prison population  
Some belong there but also some belong on probation  
Drama is not being able to change one thing  
Cause the system you live in says you ain't shit  
Drama is corporate scandal  
Drama is a handful of CEO's playin' you for a damn fool  
Drama is being a millionaire  
But gotta' recoup half the budget from your 10 percent share  
Drama is having one too many women  
Even though you always need a spare one to swim in  
Drama is dealing with your jealous impulses  
Learning how to hold it all in with no emotion  
Drama is blind devotion  
Drama is having your deepest secrets exposed in the open  
Drama is having your heart broken  
And the person who broke it doesn't even motherfucking notice  
Drama is trying to carry a burden all by yourself on your shoulders and it don't exist  
Drama is being falsely accused, Drama is the latest news  
Drama is what gives people clues  
Drama is a tool you can use to distract ya' enemy so they never improve  
Drama is the fear of devils and the fear of God  
Drama is a long and hard Tech support desk job  
Drama is the life of an up-and-coming actor or rapper  
Or athlete or building contractor  
Drama is a rookie cop calling for backup  
The 3 strike perpetrator that's getting tatted up  
Drama is the spin zone of a politician  
Drama is K-Solo when he said the rhyme did it  
Drama is the struggle of change  
Drama is inevitable there is no other way  
Drama is what drains life force out of you  
Drama is negative but drama can empower you  
Drama is love, Drama is pain  
Drama exists in everything everyday  
Drama is the Yen, Drama is the Yang  
Drama is the innate nature of man  
Drama contracts, Drama expands  
Drama is what I am

[Luminati]

Pull up a chair to the aristocracy of commonwealth prophecy  
The legacy of generation three isosceles  
Logical geometry, illogical melodies  
Integrated with memories that mix melodically  
Beyond the insight of what a modern-day monkey sees  
Get chopped in three for pathetic hypocrisy  
False bureaucracy breeds poetic monopolies  
Chateau de Trevano is my property  
An addict for drama and dramatic oddities  
Addicted to bottles of sticky green botany  
In a reflection of the split seas you see me in 3D  
Tripping off three hits of E  
Half-a-tablet for you 2-and-a-half for me  
A rappers speech is slurred for eternal depravity  
Naturally ignore gravity project astrally  
Ascend gradually till the stratosphere passes me  
Earth's actually esoterically absent to me  
Take a crack at me with blurred clarity - battle me  
Spiders crawl outta the skin the six headed beast  
Evil beings that wrestle with demons in the deep  
Useless to eat 200 pounds of rotten meat  
Shrink heads drink black milk collect black teeth  
Luminati tribal chief wear it as trophy piece  
My women are ornamented with a blood soaked wreath  
Like Christmas minus Christ plus the heat  
The Ascended Master, leader of all immortal freaks  
Voodoo curse on your last and future release  
Unleash the worst plague put the world under siege  
Till your name is unheard and your face is unseen  
Till your just a nightmare of an accursed dream  
Tell the supreme to curse your whole team and your unborn seed  
Poison your queen like the Furher's last week  
In the blood filled streets your a leech  
Less than a man a poverty stricken thief with grief  
At night you speak to Satan before you go to sleep  
Worshipping the flesh like poor pagan priests  
Your future's oblique  
I command your heart to seize its beat  
Thou shall inherit disease, drama and defeat...

Drama... Drama... Drama... Drama
