Song: Group Home Family Featured Artists: Lost Boyz Album:

(Canibus)

My dick's like planet Earth; everybody's on it Used to kick rhymes for free, on street corners Group Home is the name of my organization We gets busy like phones without call-waiting Cold killing them, cold blooded reptilian To rock, none stop, for the millennium Listen, everyone in my crew be spitting Eight niggas deep in a Ford Expedition I rock ice bigger than boulders My shine be bright enough to give a nigga Glaucoma Never sober, breaking it down the hardest The live artists, that beats dead carcass The C.I.A., wants to murder, cause verbally I'm a threat to National Security With the freestyle instinct, we think quick And set it off like Jada Pinkett //
