

# Canibus, Secrets Amongst Cosmonauts

\*Spanish speaking soldiers\*

&quot;They have different videos that's caused by these Cosmonauts&quot;

[Sample]

&quot;And so, if you take all these together  
Dimension of the Earth in nautical miles  
21,600 and you divided by 33; you'll get...&quot;

[Intro]

+Secrets Amongst Cosmonauts+  
These are the Secrets of the Cosmonauts  
I know I rhyme a lot  
This is the most important rhyme I ever said in my life  
Stop the hatred, and stop being racist  
I believe the Cosmonauts will come down and save us

[Chorus]

(We share the song) This is a song, written by God  
(Especially for you) Especially for you, this is the truth  
(There's a story) A story of humankind's glory  
(Of what people do for you) I'm tellin' you the Cosmonauts love you

[Canibus]

Twenty-one thousand six-hundred nautical miles  
I've got the same amount, if not more audible styles  
By no means am I to interpret the absolute  
I'm merely a vessel that the entity chooses to use  
I'm raw energy, just like you  
I don't teach 'cause Teachers only receive contempt from the youth  
I know what I know, there's no need to convince you  
The poetry's fairly simple, you perceive the visual  
The grass isn't greener, it's browner  
I believe in the power that spins the Earth around upward and outward  
You say, &quot;You don't like the album&quot;, I say you a coward  
You say you don't like the beats, I say what about them?  
Whether or not you like the lyrics I would not be surprised  
If you the devil in disguise I can see it in your eyes  
We are all equal; we are all sisters and brothers  
In spite of our colour, all we have is each other, they love us

[Chorus]

[Canibus]

Your sexual orientation is none of my business  
But don't lie to yourself, and don't lie to the children  
Some of us are healthy, some of us have diseases  
But if you look at the whole world we represent the human species  
You can't ignore continents while they starve  
You'll be wearin' their shoes before long  
As the Globe becomes more warm  
Families hold on but their country is war-torn  
The prophecies are forewarned  
You would've thought Katrina storm taught y'all  
But nah, you're still too distracted ain't y'all?  
I've come to learn that the Cosmonauts up high  
Don't believe that we deserve another chance and I'll tell you why  
We watch either other die, and we're still racist  
Not in my household, but in other places  
The patience of the Gods have run thin  
Because of your sin, the period of purification will begin

[Chorus]

[Canibus]

The procession will wash away  
The world's sins with Tsunami's and Whirlwinds  
Our world ends, but then it begins again  
Six-thousand four-hundred eighty years later  
The next civilization will dig our artifacts out of a crater  
They will say that we were great but that they are greater  
Humankind will continue to search for his creator  
Wage war against the forces that try to enslave us  
Send space probes to our celestial neighbours  
We could stop the hatred; if we stop being racist  
I believe the Cosmonauts will come down and save us  
If humankind will accept all races  
There's no reason that the Cosmonauts wouldn't save us  
Love your neighbours; we're different, but God made us  
Love all races, the Cosmonauts would love to save us  
Basic Instructions Before Leaving Earth (B.I.B.L.E.)  
Wake up, stop the hatred, the Cosmonauts wanna save us

[Chorus]

"Advance knowledge that people in general will never hear  
Is passed on to the chosen ones that are chosen to have this..
