

Cannibal Corpse, Endless Pain

You cry out the aggression that is in your every day

You want to kill the enemies if they cross your way

In your heart is hate, terror is freezin' your bones

The night is so dark and you're all alone

The voice of Hell sound is so nice

The final death is the price

You can't wait much longer

To give'em what they need

You'll burst down their heads

And spread the hellish heat

Feel the endless pain

Locked in metal chain

Feel the endless pain

Locked in metal chain

Green and red monsters torment your mind

The power of death will destroy mankind

You'll die fast you - don't feel much pain

But why you will never know, it's a hellish game

The voice of Hell sound is so nice

The final death is the price

You can't wait much longer

To give'em what they need

You'll burst down their heads

And spread the hellish heat

Feel the endless pain

Locked in metal chain

Feel the endless pain

Locked in metal chain
