

Cannibal Corpse, I Cum Blood

Swollen with liquid
Ready to burst
A load of my lymph
Will quench this dead body's thirst
One month in the grave
twisted and half decayed
She turned a putrid yellow
I pissed in her maggot filled asshole

Fucking the rotting
My semen is bleeding
The smell of decay
Seeps from her genital cavity

The smell was unbearable As I unburied her
I cum blood from my erection
I feel it run
down her throat, swallow

Eyes glassy and vacant
body dug up to play with
Skin greasy and naked
tonguing her rotted anus

I need a live woman
to fill with my fluid
A delicate girl, to mutilate, fuck and kill
her body exceptional
she thought I was normal
but I wanted more

I came blood inside of her
choking on the clot
gagging on my snot
gushing blood, from her mouth
bloody gel leaking out
Body buried in a shallow grave
Unmarked for none to find
The sickness I have left behind
Undetected go my crimes
The greatest thrill of my life
was hacking my hard cock with a knife

Violent, climax Serging serum
on my skin

Back from the dead
I am resurrected
to spew, putrification
