

Cannons, Come Alive

It was a long time ago
I walked the loneliest road
You know I walked it alone
That was a long time ago

Now that you're by my side
I get this feeling, get this feeling
Like I'm hypnotized
Now when I see your eyes
I get this feeling, get this feeling
I just come alive

And I been dreaming of you
Do you dream of me too
And I been dreaming of you, baby
Do you dream of me too
And I been dreaming of you

Tell me where do we go
Baby, I need to know
I'm tired of walking alone
Tell me which way to go

Now that you're by my side
I get this feeling, get this feeling
Like I'm hypnotized
Now when I see your eyes
I get this feeling, get this feeling
I just come alive

And I been dreaming of you
Do you dream of me too
And I been dreaming of you, baby
Do you dream of me too

And I been dreaming of you
Do you dream of me too
And I been dreaming of you, baby
Do you dream of me too
And I been dreaming of you
