

Cannons, Heartbeat Highway

I caught a smile
That you meant to hide
When you were sitting
In my passenger seat on the 405

And your cigarette smoke rose
Like a serpent of light
One of those moments
Where everything is alright

But sooner later danger danger
Need to give you this disclaimer
Know it may not be, forever

Sooner later
Danger danger
Write me up for bad behavior

And I, and I
And I'm here tonight to ride this though
And just for tonight, I'm here with you
Cus I'm goin through
Emotions in motion with you
And I'm here tonight
Riding down this road with you
Down this road with you

Another day lost inside the maze
Maybe I'm not my best
But I'm trying my best
That should be okay

Sooner later danger danger
Need to give you this disclaimer
No it may not be forever
Sooner later danger danger
Write me up for bad behavior
And I, and I

And I'm here to tonight to ride this through
And just for tonight, I'm here with you
Cus I'm going through
Emotions in motion with you
And I'm here tonight
Riding down this road with you

Down this road with you
Down this road with you
Down this road with you
Down this road with you
Down this road with you
