

Cantatonia, Thank You Stars

Some call it faith, some call it love
Some call it guidance from above
You are the reason we found ours
So thank you stars

Some people think it's far away
Some know it's with them every day
You are the reason we found ours
So thank you stars

There are no winds that can blow it away on the edge
When they try to blow it away
Is when you know it will always be there

To some it's the strenght to be apart
To some it's a feeling in the heart

And when you're out there on your own
It's the way back home

There are no winds that can blow it away on the edge
When they try to blow it away
Is when you know it will always be there

Some call it faith, some call it love
Some call it guidance from above
You are the reason we found ours
So thank you stars

Thank you stars
Thank you stars
